# TYPE-C DUAL HDMI ADAPTER

**1** Plug in the Type-C Dual HDMI Adapter to your device's two USB-C ports.
LED indicator light will illuminate when connected

**2** Insert two HDMI cables into the adapter's dual HDMI ports.
HDMI 2.0 cable is recommended for optimal functionality

**3** Connect the cables to your HDMI-enabled monitors for extended 4K HDMI display.
Supports only direct HDMI to HDMI connection. Does not support DVI/VGA

**4** Connect charger to pass through port to charge your device.
Max output: 60W

**5** We recommend using the included silicone cover when connecting two 4K 60Hz monitors with power, as max operating temperatures may range up to 52°C/126°F.

DEPENDING ON COMPUTER'S TECHNICAL SPECIFICATIONS,
STREAMING AT 4K 60HZ FOR EXTENDED PERIODS OF TIME MAY CAUSE A SLIGHT LAG IN VIDEO OUTPUT.
