

LORGAR

VOICER 931

Fully Equipped Professional Microphone

This compact, multifunctional set from Lorgar is made for gamers who want to stream, record videos or podcasts. Voicer 931 will provide a reference voice transmission rate of 48 kHz, with a bit rate of 16 bits. In addition, the microphone has a cardioid polar pattern, ensuring clear voice transmission due to suppression of external sounds and noise. The sensitivity of the gadget is approximately 40 dB, and the operating frequency range is from 50 Hz to 18 kHz. Sound control has been optimized for maximum ease of use. Pop filter and shock mounting eliminate sound vibrations and noise. All the accessories included in the kit allow you to record in any place. The pantograph stand will help you comfortably position the microphone on any table, and the adjustable tripod will allow you to record in any position. Both stands are supplied with all the necessary adapters and mounts. The microphone is compatible with most programs and does not require additional software or skills to use. The perfect gadget for your creative ideas!
