Gaming mouse pads

STELLER 913, STELLER 919 GAMING MOUSE PADS

The Lorgar Steller mouse pads will revolutionize your gaming setup. The super glide surface with low-resistance fibers makes your moves fast and agile. Have no worries about compatibility – the Steller’s surface is friendly to every sensor type. No matter how active your movement is, the anti-slip rubber base keeps your mouse pad steady.

The mouse pad has an advanced RGB backlight, but words aren’t enough: you need to see it in action. Connect the Steller mouse pad to your gaming rig via USB and customize it with Lorgar WP Gameware. While you’re at it, sync it with compatible Lorgar devices, such as your Lorgar mouse. Now, what you’re getting is a mesmerizing and synchronized lighting experience that looks jaw-dropping.

Available in medium and extra-large sizes. Choose the one and dominate the game!

SUPERIOR GLIDE SURFACE

Engineered by industry experts, our mouse pads boast smooth, low-resistance fibers that enhance your mouse's speed to lightning-fast levels. The super glide surface further guarantees exceptional controller maneuverability.

ANTI-SLIP RUBBER BASE

The superior anti-slip rubber base is as good as glue. With the total pad thickness of 3mm, you'll be extra comfy.

RGB BACKLIGHT

Elevate your gaming setup with the advanced RGB backlight in your mouse pad. Connect it via USB and enjoy a fresh visual experience.

CUSTOMIZATION WITH LORGAR WP GAMEWARE

The experience is fully customizable, thanks to our WP Gameware. Select your preferred brightness and colour. Choose between 5 backlight modes: Static, Spectrum, Breathing, Heartbeat, and Stream. Monitor your gaming performance and statistics – see how much time with your new Steller mouse pad has been spent in-game.

BACKLIGHT SYNCHRONIZATION

Immerse yourself in the harmony of light. Use Lorgar WP Gameware to sync the backlight with your Lorgar mouse or any compatible Lorgar device.
