

KB-3035 – RGB gaming keypad

Get advantages in-game with the KB-3035 RGB gaming keypad. Reduced to the 35 most important keys, unwanted key commands are a thing of the past. The ergonomic design as well as the integrated palm rest prevent painful inflammation and guarantee a longer gaming experience.

The integrated RGB backlighting of the buttons can be switched to three modes at the touch of a button (ON, OFF, PULSING) and does not have a disruptive effect, so that nothing stands in the way of nightly gaming sessions. The FN key can also be used in combination with the F keys to execute five multimedia commands.

- ✓ RGB gaming keypad with 35 keys
- ✓ Three lighting modes selectable (ON, OFF, PULSING)
- ✓ Ergonomic design with palm rest
- ✓ FN key for multimedia commands
