01 Introduction Dreame Technology

Dreame Technology

Dreame Technology specializes in the R&D of smart home appliances to make more intelligent and sanitary lifestyles easily accessible to global consumers. Beginning as a campus organization at Tsinghua University called “Skyworks”, Dreame has grown into one of the technology leaders—pioneering a series of innovative advancements including high-speed motors and multi-cone cyclone separation technology. The spirit of innovation has established Dreame as a trailblazer in vacuum and robot vacuum technology.

U20 Cordless Vacuum

With lights and ease, cleaning is a breeze.

Consistent Suction Power, High Filtration Efficiency, Blue LED Lighting

U20 streamlines cleaning with its cordless design, smart features, and cutting-edge optic technology. Cleaning your home has never been easier because to the 120AW suction and versatile attachments offered by the U20. The brush head has blue LEDs to illuminate the areas so you can clean more effectively in low light, giving you peace of mind even when cleaning in tight spaces. The vacuum makes it easy for pet owners to clean by removing dirt and hair from furniture and other hard-to-reach places. Have fun as U20 cleans your home meticulously and carefully.

Multiple Floor Cleaning

- Multi-Surface Brush Head with Innovative Blue LED Light Illuminating Dim Spaces and Revealing Dust
- Front Aperture Design for picking up large dust and particles
- Anti-Tangle Design

Consistent Cordless Cleaning

- 120AW (20kPa) of Suction Power
- 60-Minute Maximum Runtime
- 100,000RPM High-Speed Brushless Motor
- Independent Motor For Consistent High-speed Rotation

Dust Leaking Prevention

- Five-Layer Filtration System
- High Filtration Rate of 99.9%
- Multi-Cone Cyclone Dust Separator
- 0.5L Dust Cup

Optimized Motorized Mini-Brush

- Removing Hair and Fur
- Rubber brush design further avoiding hair tangled

Versatile Attachments

- Wide Combination Tool
- Motorized Mini-Brush

Effortless Maintenance

- Swappable Battery Pack
- One-take detachable Dust Cup Emptying
- Detachable and Washable Multi-cone Cyclone, Filter, Internal Sponge and Roller Brush
- Wall Mount Design

Less Weight and Less Noise

- Low Noise
- Lightweight

02 Introduction Highlight

Consistent cordless cleaning

- As a cordless stick vacuum, U20 manages to deliver a consistent and powerful suction power of 120AW with an independent motor, which means the suction is stable during cleanup, uncompromised by the heat of the battery or air channel clogging.

03 Selling Point 1 Versatile Floor Cleaning

Innovative blue lights for comprehensive cleaning

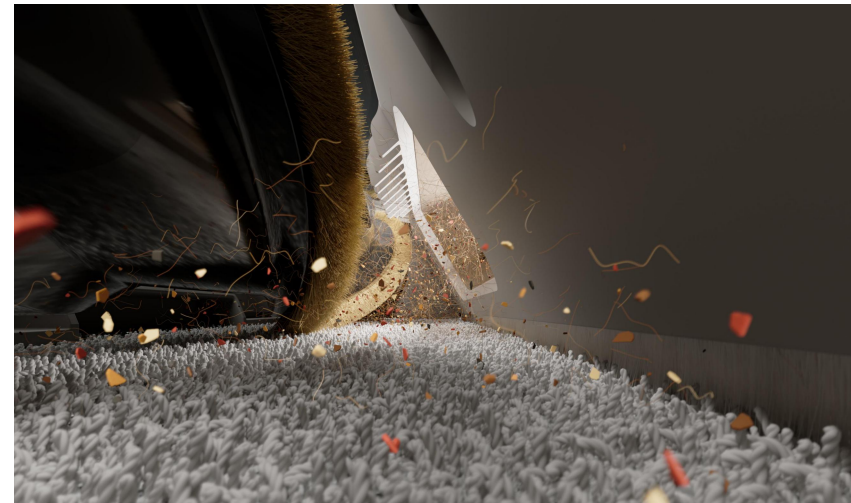

- Light up dark spaces with blue illuminating LEDs to reveal dirt, dust, and debris in dark corners while making your home clean all over.
- Blue lights reveal dust, hair and fur that are not easily seen on the cleaning required surfaces and assist with comprehensive cleaning.
- The blue lights with wide angle comprehensively reveal dust and small particles at corners or dark nooks. Lights are more efficient in reflecting wider angles.

03 Selling Point 1 Versatile Floor Cleaning

Versatile multi-surface brush, comprehensive cleaning

- The Multi-surface Brush Head with V-shaped bristles fits for carpet and hard floor cleaning.
- The front aperture design of the brush head is to pick up large dust and particles easily.
- The comb-like anti-tangle design assists in routing hair into the dust cup and away from the brush in case of getting tangled.

Thoroughly clean cord free

- Pet parents look no further. The advanced motorized mini-brush is optimized to remove hair, fur and dander from fabrics and furniture.
- The rubber bristles are strategically engineered to pull up fur and hair with a single push and to prevent tangling.
- Enjoy your time with your fur-baby, because cleaning up afterward is a cinch.

Take the fur out of furniture

- Enjoy up to 60 minutes of uninterrupted cordless cleaning with consistent, powerful fade-free suction.
- Clean your whole home with **120AW** of suction power—thanks to a 7x2,500 mAh battery pack and a **100,000RPM** high-speed brushless motor—to pull up hair, dirt, dust, and debris from hidden places they might hide.
- Independent motor for consistent high-speed rotation.

03 Selling Point 8 Versatile Attachments

Attachment designed to facilitate extensive cleaning

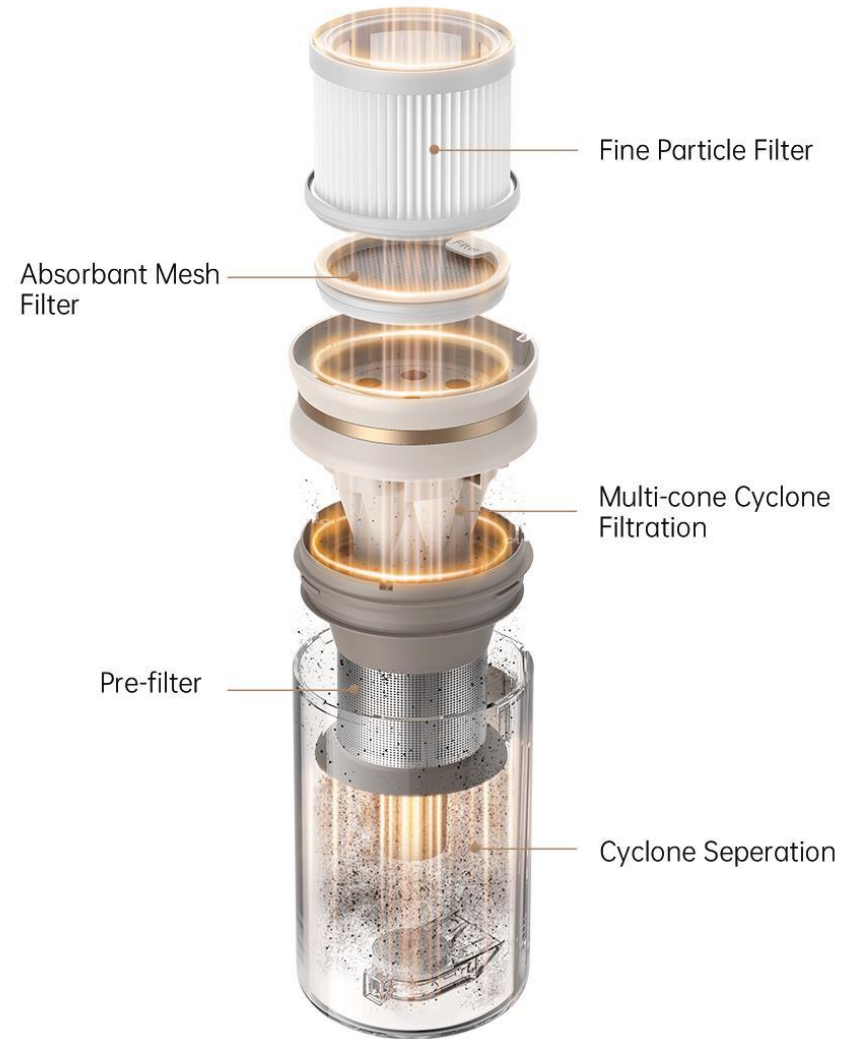

- The wide combination tool makes it easy to clean difficult-to-access areas.
- The brush with gentle bristles is accessible for dusting hard-to-reach areas.
- By transforming the tool into a tube, it's also feasible to remove debris from tight spaces.

03 Selling Point 3 Dust Leaking Prevention

Lock in dust

- The advanced five-layer filtration system captures fine dust and particles and keeps them away from the air with a filtration efficiency of up to 99.9%.
- The advanced multi-cone dust collector filters dust from the air, and ensuring that dust goes into the dust cup where it can be dumped with a push of a button.

Easy cleaning, easier maintenance

- Easy maintenance for functioning.
- The removable dust cup, filtering components and multi-surface brush head make maintenance a breeze.
- The washable multi-cone cyclone, filter, roller brush, and pre-filter make cleaning remarkably easy.

Consistent runtime with detachable battery pack

- The interchangeable battery pack allows you to potentially double your cleaning time.
- The battery pack's detachable design makes it easier to replace and thereby increases efficiency.
- Just one press to swap the battery pack, making maintenance and cleaning time extension more convenient.

*Notice: The individual batter pack is available to purchase in Dreame stores.

More flexible recharging in terms of time and place

- The battery pack may be removed and recharged with the included charger according to its modular design.
- The battery can also be charged when the vacuum is attached.

Clean with ease

- Powerful suction doesn't sacrifice handy operation with the ultra-light design lets you clean high and low places with just one hand. Keep cleaning powerful, versatile, and non-disruptive with U20.

Convenient wall-mounted storage

- A wall hanging storage mount provides easy access and convenient stowing for your vacuum and all of its attachments.
