

Technical specifications

Type	Midi tower
Recommended for	Home / office
Dimensions	455*205*475 mm (L*W*H)
Motherboard standard	ATX/ Micro ATX/ ITX
Ports on the front/top panel:	
Tool-free mounting	YES
Drive bays:	
Maximum number of fans	5
Number of pre-mounted fans:	
Fan(s) velocity control	NO
Place for extension cards	7
Space for power supply	Bottom of the case
Tunnel for power supply unit	YES - 240 mm
Height of CPU cooling	163 mm
Maximum height of video card	395 mm
possibility of mounting water cooling system	NO
side panel with a window	NO
filter under the power supply unit	YES
filter on the top panel	NO
filter on the front panel	YES
chassis thickness	0,7 mm
net weight	5,30 kg

Product description

MODECOM OBERON PRO LE

MODECOM OBERON PRO LE was designed for those who like spacious and functional interiors combined with nice and modern design. Well worked-out construction of this gaming case interior combined with perfectly developed details of the front panel make up for a flagship product among newly launched MODECOM computer cases. OBERON PRO LE BLACK stands out thanks to its elegant and minimalistic design highlighted with classic black colour.

Key features

- multiple organisation solutions
- modified interior with long PSU tunnel – 240 mm
- toolless design for an easy PCI / PCIe installation
- modern design of the front panel
- functional interior with a tunnel for power supply unit and HDD 3.5" hard drives
- three dedicated drive bays for SSD 2.5" hard drives
- HDD 3.5" hard drives tool-free mounting
- extension cards tool-free mounting
- pre-installed black 120 mm fans
- anti-dust filters
- space for video cards up to 395 mm
- possibility of mounting CPU cooling up to 163 mm

Cooling system

OBERON PRO LE has one pre-installed black 120 mm fan (back), which is a great solution preventing the components from blocking the airflow. Maximum height of CPU cooler is 163 mm.

Space organisation system

OBERON PRO LE enables extension cards tool-free mounting, and convenient wiring organisation system makes it easy to keep the interior well-organised. Space for video card is extended up to 395 mm.

Functional and modern design

OBERON PRO LE lets you organise its interior in whatever way you like according to your own preferences with the use of high-end components and keep the good airflow at the same time. The interior will stay clean thanks to easily dismountable magnetic filter on the bottom under the power supply unit.

SSD/HDD drive bays

You can mount three SSD 2.5" and two HDD 3.5" hard drives tool-free in OBERON PRO LE case. Power supply unit and 3.5" hard drives are placed in a tunnel on the bottom of the case. SSD hard drives are mounted on both sides, which makes it easy to keep the good airflow.

Long video cards

Mount long video cards up to 395 mm inside.

Solid and durable frame

The frame of the case is made of high-quality black-painted SPCC steel of 0.7 mm thickness.

CPU cooler

Possibility of mounting CPU cooler up to 163 mm height.

Power supply unit mounting

For better airflow, the power supply unit is mounted on the bottom of the case in a dedicated tunnel.

Anti-dust filters

Filters placed directly under the power supply unit, on the front panel and on the top panel will prevent the dust from getting inside the case.
