

Universal Remote Control | Large Buttons | Preprogrammed | Control 2 Devices

General information

If you only use the basic functions on your remote control, this Nedis® senior TV remote control is exactly what you are looking for. It only contains functions which are absolutely necessary to control your television, without all those confusing buttons you normally don't use anyway. With just a few XL buttons, this Nedis® senior TV remote control is the perfect solution for the elderly.

Features

- Only equipped with basic buttons
- XL buttons for maximum legibility
- Preprogrammed, ready to use
- Works with every television
