LINEX[®]

Linex

At a glance

LINEX was founded by a young man studying to be an engineer.

In 1923 he started making his own drawing and measuring tools for him and his fellow students. He was not satisfied with the quality available on the market.

In 1935 the company LINEX was officially founded and modern production facilities was built.

LINEX has focused on high precision drawing materials and has added additional product lines to the brand over the years

LINEX is represented in more than 50 countries around the World and we consider our selves a global brand.

Our strategy

Changing markets and consumer needs. Due to the new digital possibilities used in technical drawing, the need for manual writing and drawing materials for professionals is declining.

Keeping the leading role for drawing, writing and hobby materials for students and professionals trough new products and convenient solutions.

Our future - the children:

- Providing good affordable products for both school and private use.
- Helping children to understand theoretical educational skills - our Active Learning concept.
- Equipment for educational institutions on all levels.

Why?

We help and inspire people to create better results.

How?

We enhance performance of children and adults by merging, learning, creativity and precision.

What?

We develop the most accurate and user friendly learning, measuring and drawing tools.

Want to
create
great
things?

Our legendary Super Ruler has achieved national and international recognition and its resilient design still makes it an international best-seller.

It includes a unique slide/antislid principle, which makes it far more functional and efficient than traditional rulers. A built-in rubber strip grips the underlying surface and the ruler locks itself firmly in place. By slightly tilting the ruler, it is easily repositioned. The Super Ruler has found wide use as it is suitable for both drafting, measuring and following lines. Material: glass-clear acrylic with coloured centre.

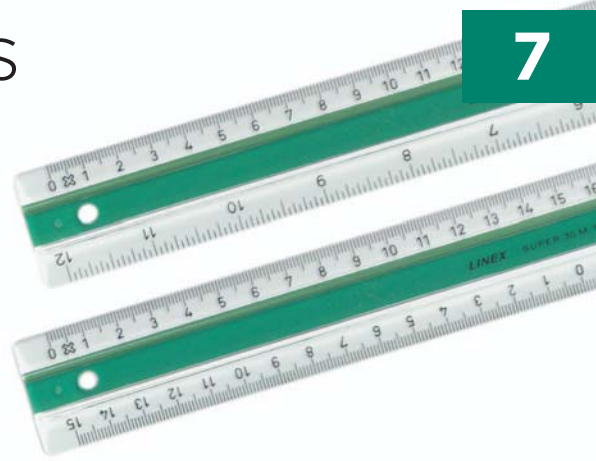

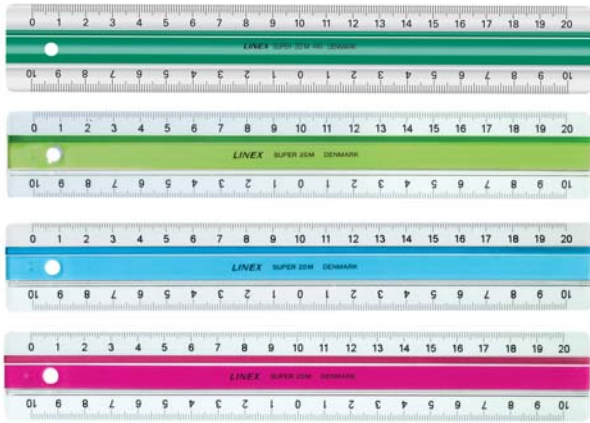

One rubber strip prevents the ruler from sliding. When tilting the ruler, the rubber is lifted from the paper and the ruler slides smoothly on the acrylic rib.

Two rubber strips ensure that the ruler lies firmly on the paper.

All angles between 0-45° are automatically indicated. Additionally, for length of base = 1, the length of the secant and the height of the tangent are indicated. Example: $V = 30^\circ$, tangent = 0.577, secant = 1.155 and base = 700 mm, then height = $0.577 \times 700 = 403.9$ mm and length = $1.155 \times 700 = 808.5$ mm

Geometrical Shapes with Forms and Sections

Product info:

- 6 geometric shapes made of recycled plastic
- Height 10 cm
- 5 colored lids, 6 forms of durable plastic, 6 sheets for overhead projector and separat sections
- Used for middle school
- Manual included

Product use:

- To identify, describe and calculate base areas, top surface of area, side surface, forms, volume, surface, surface of revolution and axis.
- The teacher explains basic characteristics of each shape so the students easily can recognize the terms when they compare the shapes.
- With separated sections you can show several segments and you can calculate and compare several volumes.

Tangrams

Product info:

- 28 tangrams
- 10x10 cm
- 4 different colors
- Durable plastic
- Used for middle school

Product use:

- Provides a fun way for children to explore geometry, shapes, colors, patterns, and designs.
- The students can create geometric shapes, tangram puzzles (form animals and objects as shown) and symmetrical figures.

Geometric Mirror Set

Product info:

- Set of 10 plastic mirrors with a reflecting side
- Size: 15x10 cm
- Round corners
- Used for pre-school/primary school and middle school

Product use:

- For optical and reflection exercises.
- Important teaching aid for mathematical education to see mirror pictures, symmetries or geometrical shapes.
- Can be used to build patterns, read mirror writing and other reflecting experiments.

Transparent Geometric Mirror

Product info:

- Reflecting mirror in recycled plastic
- Size: 15x10x6 cm
- Sloped drawing edge
- Used for pre-school/primary school and middle school

Product use:

- Look through the transparent mirror and draw the reflection of the picture on the backside.
- Can be used to read mirror writing or copy a picture in the mirror.
- Can be used by both left- and right-handed teachers and students.

Double-sided Geometric Boards

Product info:

- Set of 6 green double-sided geoboards
- Size: 15x15 cm
- 25 pins on one side and 24 pins on the other side in form of a circle
- Rubber bands
- Used for middle school
- Examples included

Product use:

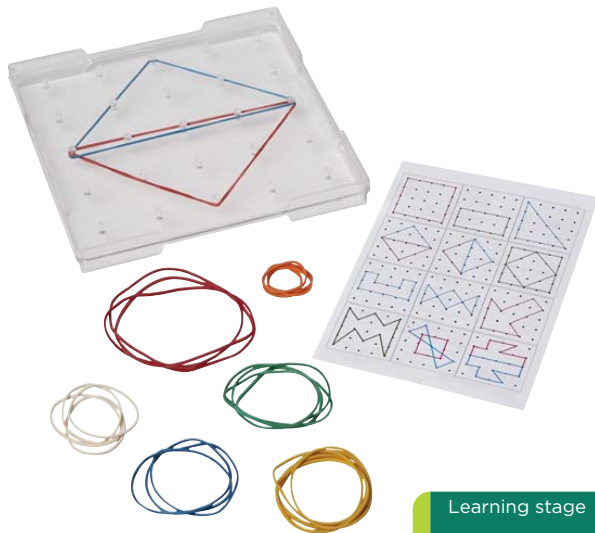

- Geoboards are useful for teaching shapes, angles, area and perimeter.
- Manipulate rubber bands to explore lines, shapes and pictures.

Geoboard

Product info:

- One-sided transparent square board made of recycled plastic
- Size: 15x15 cm
- 25 pins
- Including 25 rubber bands in four colors and two sizes with 12 examples
- Used for middle school
- Examples included

Product use:

- Geoboards are useful for teaching shapes, angles, area and perimeter.
- Manipulate rubber bands to explore lines, shapes and pictures.

Order code: 400065127

The products are simple and easy for the children to use

Measuring Cup Set

Product info:

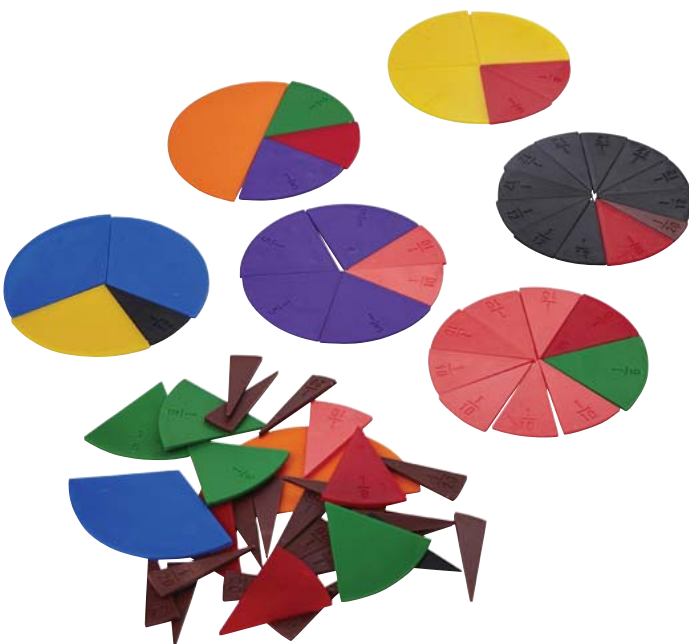

- Set of 6 measuring cups in recycled plastic
- The set includes: 1000 ml, 500 ml, 250 ml, 100 ml, 50 ml and 10 ml
- Can be used up to 135° C
- All measuring cups has a marked scale
- Used for middle school

Product use:

- Learn about volume and measurements.

Order code: 400065139

Fraction Pieces

Product info:

- 10 fraction sets in solid plastic
- Each fraction has its own color and is marked
- Shows $1/1$, $1/2$, $1/3$, $1/4$, $1/5$, $1/6$, $1/8$, $1/10$, $1/12$, $1/20$
- 10 cm in diameter
- Used for middle school

Product use:

- Learn about fractions in an illustrative manner.

Balance

Product info:

- From 0,5 gram and up to 2 kg
- Size: 38x13x13 cm
- Used for pre-school/primary school
- Manual included

Product use:

- A very precise balance made of recycled plastic.
- Learn about weights and units.

Order code: 400065106

Weight

Product info:

- Set of 12 weights of cast iron and brass.
- Cast iron weights: 1x500 g, 1x200 g, 2x100 g
- Brass weights: 1x50 g, 1x20 g, 2x10 g, 1x5 g, 2x2 g, 1x1 g
- Total weight: 1 kg.
- Used for pre-school/primary school

Product use:

- To be used with the balance.
- To learn about weights and units.

Want to create great things?

For ultimate precision – X-actly!

Linex has always been synonymous with ultimate precision, offering high quality drawing and measuring products for professionals, office workers and students since 1935.

Boasting a long and proud history of product development, Linex continues refining the product range to ensure that customers get precision and reliability every time, with every purchase.

And now, in keeping with our focus on refinement, our classic green logo colour has been updated with a fresh touch of spring green. New logo colour, same Linex quality.

LINEX®

HAMELIN owns the brands Elba, Oxford, Canson, Pierre, Bantex, Linex and Unilux. We strive to satisfy the needs of our customers through maintaining continuous focus on quality, innovation and design.
