If you have connection problems please try Factory reset:
 Delete Bluetooth connectivity record from your Phone.
 Switch off earbuds and hold for approximately 8 seconds, until you see red light, then release.
 Hold buttons for approximately 12 seconds or until you see both LED's blink 3 times.
 Place into case and close lid.
 You are now reset and can re-pair to your phone.
Always make sure case is charged first.

TIPS

Before using, please study this manual and keep it for future reference or go to www.boompods.com for further details.

Make sure you choose the best fitting silicone tips and wings, this will deliver better sound and secure fitting.

Please charge fully before first use.

If they are left unused for over 2 weeks, please recharge.

If your phone cannot find the earbuds try switching the Bluetooth Off /On on your phone.

If the case runs low on battery the earphones will not auto switch On or Off.

If left unconnected for long periods you may need to disconnect from your phone and start the original pairing procedure.

Please only use good quality (recognised brand) power source to charge from.

Download "Boomtune" from App Store or Google Play store, this App will give you the ability to adjust sound EQ and reconfigure the controls. Please Note: Android users, once App is downloaded pairing is automatic whilst using the App, but Apple users will need to pair via the original pairing method then replace into the case and remove to activate the App features.

FCC STATEMENT RDR-IN1950

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement, the device can be used in portable exposure condition without restriction.

Model:	Boombuds GS
Stand time:	70hr
Music time:	4.5hr
Charging time:	2hr
Talking time:	4hr
Operation range:	10m(with no obstacle)
Battery type:	Li-Ion
Battery capacity(earbud):	3.7V, 43mAh
Battery capacity(case):	3.7V, 300mAh
Input parameter(case):	5V=400mA
Bluetooth profiles:	HSP/HFP/A2DP/AVRCP
