IRDM X DDR4 DIMM DRAM

IRDM X is an upgrade to IRDM series, with clock speeds at 3200 MHz. These parameters make this model dedicated to everyone who expects both high performance and reliability at competitive pricing.

MODULE FREQUENCY:

2666 | 2800 | 3000 | 3200 Mhz

MODULE LATENCY:

16-18-18 | 19-20-20

READY TO PLAY

IRDM X DDR4 memory has 4 GB, 8 GB or 16 GB of memory in one module and is available in Single and Dual Channel configurations (8, 16, 32 GB). 3200 MHz clock frequency makes IRDM X modules very popular among gamers and professional users.

HIGHEST QUALITY

All IRDM X memory modules are manufactured in Poland (Europe) with highly selected components and undergo a multi-stage quality tests before setting off for a trip to retail stores. The Quality Control Department ensures that each module is perfectly prepared for many years of use, hence we guarantee our users a lifetime warranty.

STYLISH HEAT SPREADER

IRDM X modules are equipped with improved unique, low-profile heatsinks that dissipate heat and ensure stable operation. Heatsinks are available in several colors, so that users can adjust the memory to the color of the computer casing or lighting inside the PC, to personalize it.
