Designed around you

- Ergonomic design makes the toothbrush easy to hold and use
- 14 day long-lasting battery life
- Use less. Reuse more

Easy transition to Sonicare

- Easy-Start to ease the transition

Highlights

Advanced Sonic Technology

Powerful bristle vibrations drive microbubbles deep between your teeth and along your gum line for a refreshing experience. You will get two months' worth of manual brushing in just 2 minutes.** 31,000 brush strokes per minute gently clean your teeth, break up plaque and sweep it away for an exceptional daily clean.

Removes plaque 3 x better*

The Sonicare electric toothbrush with advanced sonic technology is clinically proven to remove plaque up to 3 x better* than a manual toothbrush. It removes plaque from your teeth and along the gum line while protecting your gums.

Safe and gentle to use

Sonicare toothbrush provides you with a thorough clean without being harsh on your teeth and gums. Gentle yet powerful sonic vibrations provide an exceptional clean while being gentle on your teeth and gums.

SmartTimer and QuadPacer

2 minute SmartTimer and 30 second QuadPacer guide you to brush for the recommended time in all areas of your mouth to ensure a complete clean.

Designed around you

Slim, lightweight and ergonomic design makes the toothbrush easy to hold and use so that you get an amazing clean without any strain.

Long-lasting battery life

Battery life lasts up to 14 days so you can go long periods without charging.

Easy-Start

Our Easy-Start programme gives you the option of a gradual, gentle increase in brushing power the first 14 times you use your new toothbrush.

Goodbye adapter. Hello USB.

Power adapters may seem small, but added together, their plastic makes a huge impact on the environment. By switching to a USB charger in our Philips Sonicare 1000-4000 Series alone, we use up to 189,210 kg less plastic every year. That's powerful, right?
