**Designed around you**

- Always know when to replace your brush heads
- 14 day long-lasting battery life
- Makes traveling easier for you
- Use less. Reuse more

**Easy transition to Sonicare**

- Easy-Start to ease the transition

# Highlights

## Advanced Sonic Technology

Powerful bristle vibrations drive microbubbles deep between your teeth and along your gum line for a refreshing experience. You will get two months' worth of manual brushing in just 2 minutes.\*\* 31,000 brush strokes per minute gently clean your teeth, break up plaque and sweep it away for an exceptional daily clean.

## Removes plaque 3 x better\*

The Sonicare electric toothbrush with advanced sonic technology is clinically proven to remove plaque up to 3 x better\* than a manual toothbrush. It removes plaque from your teeth and along the gum line while protecting your gums.

## Protects your gums

Built-in pressure sensor automatically detects the pressure you apply, warns you and reduces the toothbrush vibrations automatically to help protect your gums. The toothbrush will make a pulsing sound as a reminder to ease off the pressure. 7 out of 10 people found this feature helped them become better brushers.

## SmartTimer and QuadPacer

2 minute SmartTimer and 30 second QuadPacer guide you to brush for the recommended time in all areas of your mouth to ensure a complete clean.

## BrushSync replacement reminder

All brush heads wear out over time, so you'll want to keep an eye on yours to make sure you're still getting a great clean. Our BrushSync technology tracks how long you've been using your brush head for and how hard you've been brushing. The BrushSync replacement reminder on your handle and a short beep remind you when it's time to replace it.

## Easy-Start

Our Easy-Start programme gives you the option of a gradual, gentle increase in brushing power the first 14 times you use your new toothbrush.

## Long-lasting battery life

Battery life lasts up to 14 days so you can go long periods without charging.

## Slim travel case

Our premium travel case lets you store your toothbrush hygienically, while our compact USB charging base keeps you topped up when you are on the go. You get two weeks of regular use from a single full charge, but the charger's just the ticket for longer trips.

## Goodbye adapter. Hello USB.

Power adapters may seem small, but added together, their plastic makes a huge impact on the environment. By switching to a USB charger in our Philips Sonicare 1000-4000 Series alone, we use up to 189,210 kg less plastic every year. That's powerful, right?

# Specifications

## Modes

**Clean:** For exceptional everyday cleaning

## Items included
