## NeoPix 720

NPX720/INT

## Massive image, Android TV ready

The Brightest; NeoPix 720 projector is made to deliver the best entertainment experience on a massive 120" display!

With Android TV, your favorite content is always front and center. Whether you're looking for a new show on Netflix, Hulu, or Disney+ or just want to pick up where you left off, just ask Google Assistant to do it for you! You can also stream multimedia content from your mobile devices via Chromecast or play content directly from any USB stick. In addition, keystone, 4 corners correction, and digital zoom corrections help eliminate crooked and distorted images for a perfectly proportioned picture even if the device is not in front of the wall. The powerful 2.1 audio system (two speakers and a subwoofer) will provide outstanding sound and clear bass for total cinematic immersion.

Connect all your favorite devices via HDMI (like smartphone, tablet, laptop, gaming console), and play all your videos, pictures, and audio files from a USB, thanks to the built-in multimedia player. There is also a 2x HDMI, USB-A & USB-C, and Jack 3.5 to connect external speakers. The additional dual band Wi-Fi technology is ideal for online gaming or watching Full HD movies.
